OUR  
**SERVICE**

## OVER BURDEN REMOVAL (OB)

We understand the importance of overburden removal and how it affects the overall efficiency and safety of mining operations. That's why we offer comprehensive overburden removal services to help our clients extract minerals and other resources more effectively.

## COAL GETTING

Coal getting activity is the core activity in the coal mining activity. Coal getting activity is the continuation of the overburden removal.

## HEAVY EQUIPMENT RENTAL

Providing an integrated service in exploration, exploitation, extraction, and transportation. Heavy Equipments Rental.

## HEAVY EQUIPMENT TRANSPORTATION

We provide mining equipment shipping solutions you can count on. Have your mining machinery transported safely and delivered on time.

## RECLAMATION & MINE CLOSURE

We have the experience to develop closure plans that meet front-end and on-going permitting requirements. Closure planning and design involves a range of environmentally based disciplines, as well as socio-economic considerations and post-closure monitoring.

## MANAGEMENT STOCKPILE

A solution for tracking material and stockpile balances for both mined and processed material and waste. This includes grade and quality attributes for each stockpile.
